Re: Return of Replacement Surety, Updated Surety & Reclamation Contract Forms, Chemstar Lime Company, Marblehead Lime Processing Facility, M/045/024, Tooele County, Utah

Dear Ms. Gifford:

Pursuant to our telephone conversation today, I am forwarding updated (1993) copies of our Surety Bond form (MR-FORM 5) and Reclamation Contract form (FORM MR-RC). It is my understanding you presently have outdated copies of these forms dated October 1991.

As you know, we received a replacement Surety Bond and Reclamation Contract form from Chemstar Lime Company on January 22, 1993 on the old 1991 forms. Chemstar was advised by letter dated February 11 and August 10, 1993, that updated forms would be required and that certain elements of the replacement forms (including a Permit Transfer form) would require revision.

Because the original \$269,000 surety bond which was posted by USPCI remains in effect, we are returning Chemstar's January 1993 Surety bond and Reclamation Contract forms to you. You may want use these older forms as a basis for completing the updated 1993 forms. I have also enclosed a copy of our February 11, 1993, letter which outlines the noted deficiencies and required corrections to be made.

Thank you for your cooperation and assistance in completing this permitting action. Let me know if I can provide clarification or further assistance in this regard.

Sincerely,

D. Wayne Hedberg
Permit Supervisor
